We care because we want our loved ones to get the most out of life. To live in their own home for as long as they, and we, can manage. To have the confidence to get out and about and enjoy life.

We also need to know they are safe.

Buddi can help on both counts. It's a go anywhere, anytime personal emergency response service. If the alert buttons are pressed or Buddi detects a fall, the 24 hour monitoring system kicks in to establish the location, identify the kind of assistance needed and notify you immediately.
